Re: PASC Accounting Procedures (1969, 1988 and 1996)
Wage Index Adjustment

In accordance with the terms of the referenced Accounting Procedures, the overhead rates chargeable under the following subclauses shall be adjusted as of the first day of July each year. (Please note that in the 1988 and 1996 Accounting Procedures this provision is an election. Therefore, in order for overhead rates to be automatically adjusted by the wage index factor, the parties need to have made an affirmative election with regard to this provision.)

1969 Accounting Procedure: Subclause 314(b)(1)
1988 Accounting Procedure: Subclauses 302(d)(2) and 302(d)(3)
1996 Accounting Procedure: Subclauses 302(e)(2) and 302(e)(3)

The adjustment shall be computed by multiplying the rate in use by the percentage increase or decrease in the average weekly wage and salary of the Canadian Petroleum and Natural Gas Industry for the last calendar year next preceding such last calendar year as reported by Statistics Canada.

The computation of the 2007 adjustment has been determined as follows:

2007 Average	\$1,509.95
2006 Average	<u>\$1,428.49</u>
Increase:	<u>\$81.46</u>
Percentage <u>Increase</u> :	5.70%

Effective July 1, 2008, overhead rates may be increased by 5.70%, subject to the elections described above.

Yours truly,

Matt Breadner
President

PETROLEUM ACCOUNTANTS SOCIETY OF CANADA

JULY 1, 2008 WAGE INDEX DETERMINATION

* Data from Statistics Canada:

Survey 2612, Table 281-0026; Average Weekly Earnings, All Employees, Excluding Overtime, unadjusted for seasonal variation for the Canada, Oil and Gas Extraction Industry, classified using the North American Industry Classification System (NAICS).

MONTH	AVERAGE WEEKLY EARNINGS* Canadian Dollars
Jan 2007	1,516.84
Feb 2007	1,477.23
